

# CONVERSATION BINGO

## About this resource

The following list could be printed out and used at the beginning of term or even if there has been some discord in a group to get the class chatting. You can remove the number of questions depending on the size of the group and limit it to initials or first names to avoid too much writing. Agree and share the questions before starting the discussion and allow signposting to happen for those pupils who find talking to others difficult.

Add an opportunity for introductions by modelling the expected interaction.
